ABSTRACT

The abstract should be placed at the top left column and should contain about 150-200 words.

1. INTRODUCTION

This template includes all the information about formatting manuscripts for the Joint ICMC|SMC 2014 Conference. Please use either MS-Office or L^AT_EX templates when preparing your submission. Please follow these guidelines to give the final proceedings a uniform look. If you have any questions, please contact the ICMC|SMC 2014 Organizers.

This template can be downloaded from the ICMC|SMC 2014 web site (<http://www.icmc14-smc14.net/>).

2. PAGE SIZE AND FORMAT

The proceedings will be formatted as portrait A4-size paper (21.0 cm x 29.7 cm). All material on each page should fit within a rectangle of 17.2 cm x 25.2 cm, centered on the page, beginning 2.0 cm from the top of the page and ending with 2.5 cm from the bottom. The left and right margins should be 1.9 cm. The text should be in two 8.2 cm columns with a 0.8 cm gutter. All *text* must be in a two-column format, and justified.

3. TYPESET TEXT

3.1 Normal or Body Text

Please use a 10 pt (point) Times font. Sans-serif or non-proportional fonts can be used only for special purposes, such as distinguishing source code text.

The first paragraph in each section should not be indented, but all other paragraphs should be.

3.2 Title and Authors

The title is 16 pt Times, bold, caps, upper case, centered. Authors names are centered. The lead authors name is to be listed first (left-most), and the co-authors names after. If the addresses for all authors are the same, include the address only once, centered. If the authors have different addresses, put the addresses, evenly spaced, under each authors' name.

Copyright: ©2014 First author et al. This is an open-access article distributed under the terms of the [Creative Commons Attribution 3.0 Unported License](#), which permits unrestricted use, distribution, and reproduction in any medium, provided the original author and source are credited.

3.3 First Page Copyright Notice

Please include the copyright notice exactly as it appears here in the lower left-hand corner of the first page. It is set in 8 pt Times.

3.4 Page Numbering, Headers and Footers

Do not include headers, footers or page numbers in your submission. These will be added electronically at a later stage, when the publications are assembled.

4. HEADINGS

First level headings are in Times 12 pt bold, centered with 1 line of space above the section head, and 1/2 space below it. For a section header immediately followed by a subsection header, the space should be merged.

4.1 Second Level Headings

Second level headings are in Times 10 pt bold, flush left, with 1 line of space above the section head, and 1/2 space below it. The first letter of each significant word is capitalized.

4.1.1 Third and further Level Headings

Third level headings are in Times 10 pt italics, flush left, with 1/2 line of space above the section head, and 1/2 space below it. The first letter of significant words is capitalized.

Using more than three levels of headings is strongly discouraged.

5. FLOATS AND EQUATIONS

5.1 Equations

Equations should be placed on separated lines and numbered. The number should be on the right side, in parentheses.

$$E = mc^2. \quad (1)$$

5.2 Figures, Tables and Captions

All artwork must be centered, neat, clean, and legible. All lines should be very dark for purposes of reproduction and artwork should not be hand-drawn. The proceedings will be distributed in electronic form only, therefore color figures are allowed. However, you may want to check that your figures are understandable even if they are printed in black-and-white.

String value	Numeric value
Hello ICMC SMC	2014

Table 1. Table captions should be placed below the table.

Numbers and captions of figures and tables always appear below the figure/table. Leave 1 line space between the figure or table and the caption. Figure and tables are numbered consecutively. Captions should be Times 10 pt. Place tables/figures in text as close to the reference as possible, and preferably at the top of the page.

Figure 1. Figure captions should be placed below the figure, exactly like this. This photo shows the main building of the University of Athens.

Always refer to tables and figures in the main text, for example: see Figure 1 and Table 1. Figures and tables may extend across both columns to a maximum width of 17.2 cm.

Vectorial figures are preferred, e.g., eps. When using Matlab, export using either Postscript or PDF format. Also, in order to optimize readability, the font size of text within a figure should be at list identical to footnote font size. If bitmap figures are used, please make sure that the resolution is enough for print quality.

5.3 Footnotes

Indicate footnotes with a number in the text ¹. Use 8 pt size for footnotes. Place the footnotes at the bottom of the page on which they appear. Precede the footnote with a 0.5 pt horizontal rule.

¹ This is a footnote.

6. CITATIONS

All bibliographical references should be listed at the end, inside a section named “REFERENCES”.

References must be numbered in order of appearance. Please avoid listing references that do not appear in the text.

Reference numbers in the text should appear within square brackets, such as in [1] or [2, 3].

The reference format is the standard IEEE one. We recommend using BibTeX to create the reference list.

7. CONCLUSIONS

Please, submit full-length papers. Submission is fully electronic and automated through the Conference Management System. Do not send papers directly by e-mail.

Acknowledgments

At the end of the Conclusions, acknowledgements to people, projects, funding agencies, etc. can be included after the second-level heading “Acknowledgments” (with no numbering).
